4. Field visits will be conducted normally on Saturday in November and December. For more information, please see www.unesco.hk
5. Enquiries: 2312-7696 or info@unesco.hk

Students' sharing

Lam Ying Tung, Michelle, St. Paul's Convent School:

A precious and **valuable opportunities** to explore the natural environment and it has raised my awareness in environmental conservation and **respect for the environment**. Talks and seminars are thought-provoking, from which I have gained meaningful information. I find them very useful in my study and for my future career. Through various study trips and visits, I have an overview of the environmental industry and its relation to sustainable development.

Lee Ming Tsang, Chiu Lut Sau Memorial Secondary School:

This architecture revitalization programme gave me a deeper understanding of **sustainable development** and the **overall social development**. I appreciate the relation between human and architecture. I learnt that many decrepit buildings with historical elements are valuable thus worthy of protection. I also developed **communication skills** and **teamwork spirit**, and enjoyed every bit of this programme. I am honoured to be part of it.
